(a) Excess of Births over Deaths.

(b) Excess of interstate and oversea arrivals over departures. Interstate migration relates to recorded movements by rail, sea, and air, and certain special movements by road.

(c) As at end of each period. For each date subsequent to the census of 30th June, 1954, the estimated population represents the population ascertained at the census plus natural increase and net migration since that date. As complete records of interstate migration are not available the estimated population so derived is subject to revision at the next census.

(d) At middle of each period to 1955-56 and as at end of each period thereafter.

n.a. : Not available.

**NOTE** : Population increase of the State is the sum of natural increase and net migration.

(a) Rates declared subsequent to a Commonwealth basic wage enquiry.

Female rates : Since December, 1950, female rates have been 75% of the corresponding male rates; previously they had varied according to the award or determination under which they were payable.

Note : Up to August, 1953, basic wage rates under Wages Board Determinations generally followed those fixed by the Commonwealth Court of Conciliation and Arbitration. In September, 1953, automatic quarterly adjustments of the basic wage were discontinued by the Commonwealth Court, but were continued for State Wages Board determinations until August, 1956.
